

DVT

The Company and its Applications

Ian Tatton

**Business Development
Director Northern Europe**

DVT Corporation

Brief History

- DVT's roots are at Georgia Tech
- Founded 11 years ago by 6 Professors of Vision and Robotics
- HQ Atlanta, Georgia
- A link we still maintain today

Products

Product Development

How do we develop our products?

- Our Technology Advisory Board is made up of 6 Georgia Tech professors who guide their doctoral candidates to complete their thesis on products that are spec'd by DVT, Georgia Tech and our customers
- Our R&D Engineers participate in roundtable luncheons with our trainees 20 days out of each monthour customers

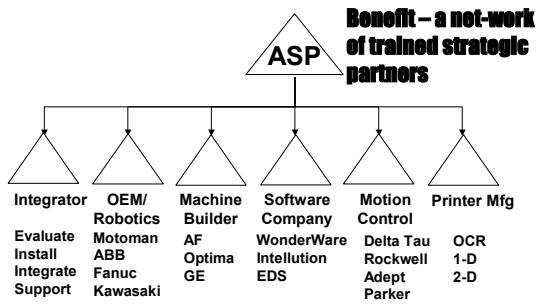

Technology

- As a result of our participation with Georgia Tech and our R&D roundtable lunches, DVT has been able to release 18 new hardware platforms over the last 11 years and 3 major software releases per year. All the software, enhancements and upgrades we produce are free
- FrameWork software is backward compatible and forward migratable with all networked DVT hardware platforms

Support

- DVT offers beginning, intermediate and advanced classroom training on four continents & advanced training classes at our customer's site
- Our Distributors offer 2 workshops per month.
- DVT's Virtual Tour offers CD-based interactive training, FrameWork software and emulator
- DVT Online Conferencing (DOC) offers web-based diagnostics, online fixes, training and User Group meetings

DVT Customer Support Model
